Teacher Education - BIOLOGY

The B.A. in Biology (with Licensure for Grades 6-12) is available with modifications to the Biology B.A.–General Biology Track and the King Core Curriculum plus successful completion of the Secondary Education minor. Licensed teachers in secondary education are in great demand in all fifty states, and science is considered a critical need area in K-12 public education by all states.

Declaration of the Education minor and early and frequent advisement is essential to timely completion of degree and licensure requirements. Students seeking teacher licensure will be assigned a secondary education advisor in the Department of Teacher Education, in addition to their major advisor. See the “Admission to the Teacher Education Program” section of this catalog or contact the Certification Advisor in the School of Education for eligibility criteria, admissions procedures, and timelines.

Core Curriculum Requirements

Biology majors seeking teaching licensure should fulfill specified categories of the King Core Curriculum by taking the courses indicated below. See the “The Core Curriculum” section of the catalog for additional details on fulfillment of other categories.
