---	---

Program Coordinator: R. Foreman

The nursing education concentration in the MSN program prepares professional nurses to function as nurse educators. This work may be in the areas of staff development, health education, or preparation of nursing students. This concentration focuses on the application of specialized knowledge and skills related to theories and principles of teaching, conceptual learning, curriculum design, assessment and evaluation of education programs and practice, and leadership to promote educational outcomes.

Selected teaching and research experiences in clinical and classroom settings provide the student with the opportunity to function as a nurse educator. Practica must be completed in a clinical and a nursing education setting.

Student Learning Outcomes

These outcomes address what students should know or be able to do upon completion of the academic program:

1. Students will be able to utilize information technology to drive health care decisions and evaluate outcomes.
2. Students will be able to evaluate health care policy and will be able to advocate/influence changes for improvement.
3. Students will be able to analyze and utilize best practices and evidence-based research to optimize knowledge development for outcomes achievements.
4. The NE MSN graduate will demonstrate competency in the process of curriculum assessment for program outcomes improvement.

Concentration Objectives

1. Develop educational strategies to promote holistic learning in individuals and groups with diverse backgrounds and developmental levels.
2. Apply teaching and learning theory to the design, implementation, and evaluation of learning processes.
